

☀ Welcome to Our Newsletter! ☀

Greetings, Northland Community!

Northland Health Alliance (NHA) is a dynamic collaboration of local health organizations united in the mission to enhance the well-being and quality of life for Clay & Platte County.

Our triennial Community Health Assessment (CHA) is a key initiative that identifies the most critical health challenges, steering NHA's task forces toward evidence-based decisions and impactful initiatives. NHA Members alongside community partners, hospitals and public health entities work TOGETHER to address the most critical health problems among Northland residents.

The Northland Health Alliance's efforts are funded through a combination of contributions from our member organizations plus local, regional, and national grant funding.

Fueled by contributions from member organizations and bolstered by local, regional, and national grant funding, NHA is committed to making a positive impact on Northland's health landscape. As we embark on this journey together, consider joining us through membership, supporting vital programs, participating in a Task Force, or contributing your time and resources.

Let's cultivate a healthier Northland, one vibrant community at a time! We look forward to featuring our programs, initiatives and partners with each Newsletter.

Safe today. Strong tomorrow.

How We Do What We Do

Every three years, the alliance conducts a Community Health Assessment (CHA) that brings together information from resident surveys, public health data, census reports and hospital data to identify the most critical health problems among Northland residents. This information is then used by the task forces within NHA to create initiatives and make evidence-based decisions on how to most effectively invest community resources to address these health problems.

Current Initiatives: Access to Mental/Behavioral Health, Access to Transportation, & Access to Health Food.

Data: We collect data about our community by leveraging our network of experts by collecting data to make informed decisions about where we spend our time and resources.

Community Health Assessment: Using that data and reaching out to the community we create a Community Health Assessment. We then use that assessment to make a plan for improvements for our community.

Funding: We are funded by Membership, Grants and currently revamping our fundraising efforts by rolling out a new membership program and increasing awareness to drive new initiatives.

We use these funds to support our Task Force initiatives to support programs (just a few examples: Narcan Distribution & Education, Suicide Prevention Training, Food Drives and Transportation Dashboard)

Ways to Engage:

Membership: Support NHA directly as a Member and have a seat at the table to vote on initiatives, programs and leverage our network!

Grants and Program Support Opportunities: Support residents in Clay and Platte by supporting a program that address direct needs

Task Force: Mental & Behavioral Health, Access to Healthy Foods, Transportation, Marketing, Data, Accounting

Partner or Volunteer: Donate your time or resources! We are looking for help with marketing, grant writing support, networking & spreading the word.

Host: Host a Networking Event (Happy Hour, Lunch and Learn, Coffee) and engage directly with our experts – can speak on a specific topic or simply engage with the community!

We are a 501C3, donations are tax deductible.
